Community participation, Inclusive education

Group work: See and Recommend:

- Positive issues, the point to be widely applicable
- Critical issues

Community Participation:

- Positive Issues:
 - Only one side raise by School Director, but there is no speak from community
- Point to be widely applicable
 - Physical checking for student before enter to class room
 - 7 steps hand washsing demonstration in the clalssroom

- Critical issues:
 - No facilities provide for children during tooth brush and hand washing activity
 - Improver tooth brush size for different child age, Preferably Kid size

Inclusive Education:

- Positive Issues:
 - There is gernal mention about inclusive education for normal child and special child, but there no indicators
- Point to be widely applicable:
 - ?
- Critical issues:
 - Should re-consider facilities for special child and should not separate special child from normal child
